

HYCOTE WRINKLE FINISH a black decorative wrinkle finish paint ideal for the restoration car dashboards, electrical components, radio cabinets etc...

DIRECTIONS FOR USE

Shake can vigorously for two minutes before use

The following application instructions must be followed closely

Prepare the area to be painted, ensuring it to be free from dirt, wax, oil, etc. Mask off with newspaper and masking tape to prevent any overspray. Shake can vigorously for at least two minutes to ensure paint is thoroughly mixed. Repeat shaking at regular intervals during use. For best results apply to bare metal. If this product is to be applied over a previous coating or primer check compatibility on a small area first. Apply 2 light to medium coats from a distance of 20-25cm at 10 minute intervals. Allow to dry for 4 hours before applying a third heavier coat. Ideal application and drying temperature for

**this paint is in the region of 20 to 25 C.
Very cold or warm temperatures can
result in a patchy finish or poor wrinkle
effect (Do not force dry paint)**
