ALLOY WHEEL CENTRE BADGE MGB LE

Durable high quality plastic centre badge for the alloy wheels fitted originally to the MGB LE and MGB GT LE limited edition models of 1979 (USA models) and 1980 (UK models). Featuring the 'MG' logo, the badge is available in a choice of black and silver (originally for USA models), red and silver (originally for UK models) or plain black (alternative). The centre badge is supplied individually - order four for a car set.

Note that a special clip is required to secure the badge in each wheel - see recommendation below.

Brand new 'LE' alloy wheels in the more commonly found USA models colour scheme of dark grey/bright alloy finish are also available from MGOC Spares; these wheels look superb on any late 1970s MGB. UK models colour scheme mid-grey/bright alloy finish LE wheels are supplied on a reconditioned 'customer's own unit' basis - please contact MGOC Spares for details.

Easy to fit. Simply push fit into the wheel centre from behind before fitting the wheel and secure in place with the badge clip.

Basic hand tools required. A pair of snipe nosed pliers or a small flat blade screwdriver make fitment of the badge securing clip a great deal easier.
